A New Vision Of Architecture

HEM KITCHEN COLLECTION rediscovers the most natural expressions of the geometric patterns, the clays, creating a chromatic range with a pastel shade, where the material becomes the main subject.

Surface is glossy and reveals to the touch a slight relief, reminiscent of unfinished gypsum. Available in 9 mm thickness, it is ideal for floorings and vibrant coverings.

The requirements of architecture vary over time, therefore, proposes solutions and surfaces that guarantee high levels of technical and aesthetic qualities while also respecting the needs of the construction.

The Lactose's product, with its unique manufacturing system, extrusion, is capable of generating different colors and patterns of special pieces, thus facilitating placement by a professional.

The Kitchen series guarantee functionality and a high aesthetic content in each type of project. From urban architecture, industrial use and even use in all types of designs of a residential hotels, Restaurant & Banquets cladding.

Kitchen

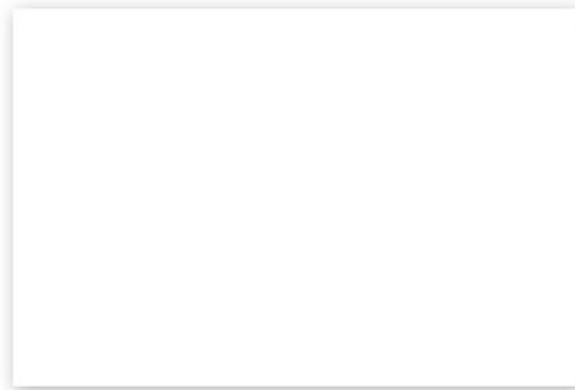

300x450mm

The Lactose company specializes in fine wall tiles with a contemporary innovative aesthetic, created with latest-generation technological processes. HEM products are intended for public, commercial, industrial and technical buildings as well as for private homes.

The Kitchen collections in the catalogue offer inimitable performance and application scope, to respond to the technological and design needs of architects and designers.

An intimate connection between architecture, technology and nature. In the Kitchen collection, wall tiles interprets the beauty of travertine, with the typical effects. Powerfully expressive tiles, whose wealth of nuances and color variations describe materials source from different quarries.
